WELCOME MESSAGE

Veronica Griffin
Vice President of Education

Dear School Partners and Families,

On behalf of Copperstone Education, I extend a warm welcome to our Credit Recovery program. We are delighted to offer this valuable service as part of our comprehensive suite of solutions designed to support international schools in effectively meeting the diverse academic needs of your students.

Our Credit Recovery program is specifically designed to provide flexible and effective options for students in several circumstances, including:

- Students who failed to earn credit in a required subject.
- Students who transferred from a different school and need a specific credit to align with their new curriculum.
- Students who require a class that is not currently offered by their school.

Credit Recovery courses are delivered virtually and are led by highly-skilled and licensed US-based teachers who are dedicated to student success. Recognizing the varied schedules and learning paces of students, our courses are completely self-paced. This allows students to progress through the material at their own speed and potentially finish well ahead of traditional timelines. Furthermore, our user-friendly portal provides a convenient platform for students to upload their transcripts for seamless submission to colleges and universities worldwide.

We are confident that our Credit Recovery program, along with our other services, will be a valuable asset in empowering your students to achieve their academic goals and prepare for future success.

Warm Regards,

Veronica Griffin

Veronica Griffin, M.Ed

Vice President of Education

Why Credit Recovery Courses Are Important

Failing to graduate high school on time carries a heavy emotional burden. For students, it can trigger deep feelings of disappointment, frustration, and even shame, as they watch their peers move on to the next chapter of their lives while they feel left behind. This experience isn't just a setback; it's a profound emotional toll that can shake their confidence for a lifetime. Credit Recovery can also ensure that transcripts meet the standards for college admission.

By allowing students to make up lost credits, Copperstone Credit Recovery keeps them on track to earn their high school diploma, which is increasingly important for future educational and career opportunities.

Why Copperstone for Credit Recovery

Our Curriculum

- Used by Schools in All 50 US States

Refund Policy: Course fees are non-refundable one week after registration or after a teacher has started grading course work.

Parent and Guardian Expectations Guide

EdOptions
ACADEMY

Virtual learning with EdOptions Academy presents a different yet potentially enriching educational experience for both your child and yourself. Recognizing and fulfilling your role is not merely helpful, but fundamental to ensuring your child thrives and achieves their full potential in their online courses.

As an additional layer of support, Copperstone Education offers readily available assistance via phone call or text message during our support hours, which are Monday-Thursday from 8AM-8PM and Friday and Saturday from 8AM-12PM.

As a parent/guardian, this is what you can do to support your child

- Upon registration in EdOptions Academy, all students are emailed the Student Policy Guide, which details what students must do to successfully complete courses in EdOptions Academy, and it includes the Student Code of Conduct. Make sure that your child has read and understands this information. If you or your child has any questions, contact your Copperstone Education representative.
- At the beginning of each course, the teacher will email you information specific to that course. Make sure your child knows the start and end dates of his or her course.
- **Fall and Spring Courses:** may vary in length but courses are typically offered by semester and the course length is 18 weeks. Students should expect to spend an average of 50 minutes per day on each class, 5 days per week.
- **Summer Courses:** Copperstone Education runs 8-week condensed summer courses for students in need of credit recovery and students seeking to get a head start on the upcoming school year. Students should expect to spend an average of 4 hours per day, 5 days per week.
- **Preparing the Home:** Our most successful students maintain a consistent study schedule and a dedicated study space in the home. It is also helpful when parents regularly engage him or her in conversation about what he or she is learning and any challenges encountered in their online course.

Parent and Guardian Expectations Guide

Encourage your child to connect with their teacher:

- Just as in traditional classrooms, the relationship between each student and his or her teacher is one of the keys to student success.
- Teachers can be contacted via phone, email, videoconference, and the collaboration tool built into the online learning platform.
- Teachers are available at various times during the day and evening; there is not a set schedule.
- Teachers are required to provide feedback on all student assignments within 24 hours of submission.

Other Important Policies to Note:

- **Dropping Courses:** Each student enrollment has a 14-day grace period. This means that students may drop any course and replace it with another course within 14-days of enrollment. To drop a course, please contact your Copperstone Education representative.
- **Course Extensions:** Copperstone Education allows for EdOptions Academy course extensions in cases of illness or travel that limited access to course work. There is typically an additional cost of AED 500 if the course exceeds 18 weeks. Individual courses can be extended for up to one month.
- **Course Materials:**
 - **World Languages** courses require recording capability, and headphones.
 - **No textbooks are required**—all materials needed are online.
- **Transcripts:**
 - **Unofficial Transcript:** Student transcripts are available to students and parents via the EdOptions Academy Student Information System (SIS).
 - **Official Transcript:** Upon completion of the course, you may request your child’s official transcript with the EdOptions Academy seal at no cost by contacting your Copperstone Education representative.
